

A Quick Guide to... the Desmos Scientific Calculator

What is it?

Desmo Scientific Calculator is a free app and online graphing calculator that functions the same as a handheld calculator. It allows you to input problems in both degrees and radians and gives answers in a clear and straightforward manner.

How is it used in class?

- Students can use Desmos as their calculator.
- Instructors can pull up Desmos on a screen and use it to show how to do calculations without students having to worry about not reading their handwriting.
