## How is this beneficial to students & instructors?

### Students

- Duolingo allows students to work on their language studies outside of the classroom in a more entertaining and less taxing manner.
- It provides a personalized and less stressful way of learning languages.

### Instructors

- Has both implicit and explicit learning as the platform allows users to discover patterns on their own without strict classroom language rules.
- Ideal for developing a strong foundational knowledge of language and its rules.
- Good recommendation for extra help for students in language classes.
