

A Quick Guide to... Mathway

What is it?

Mathway is an easy to use, Chegg sponsored, free app and online calculator that provides students with explanations as well as solutions to mathematical problems on a variety of mathematical subjects. Simply choose a subject, plug in a problem, and click "Evaluate" to see the answer and explanation.

How is it used in class?

- Instructors can plug in their own problems and use the step by step instructions as examples for students.
- If the instructor has premium they can create their own practice worksheets for class.

Membership Structure:

FREE

\$0

- Provides basic explanations
- Gives multiple forms of the same answer

PREMIUM \$19.99/mo

- Step by step work
- Access on web or app
- No ads

The Basics

Works On:

Tablets

Laptops

Smart Phones

Learning Curve:

<1 hr.

2-3 hrs.

>5 hrs.

How is this beneficial to students & instructors?

Students

- Gives students an online calculator with different options for various subjects.
- Allows students to see answers step by step which limits confusion and stress of asking instructors for help.
- With premium, students can create their own practice worksheets for targeted practice and explore the glossary for extra support.

Instructors

- With premium, instructors can create practice worksheets for class and either print or create a PDF file to share with their students.
- Great reference guide to provide students with.
